IMPROVE MY MOVE

OUR EXPERIENCE, YOUR PEACE OF
MIND

We are your first port of call for full property
condition and inspection reports, carried out by
qualified tradespeople.

We know it can be challenging and expensive
when either buying, selling, or letting properties,
but we can help to make the process easy and
transparent, giving you the peace of mind you
need.

With years of building and trade knowledge we
specialise in giving you the confidence needed
when doing full inspections, testing and
certification.

Unlike a chartered survey we offer a different
perspective on property surveying, with all our
property condition reports undertaken by our
team of qualified tradespeople who offer a trade
minded point of view, giving us the ability to spot
pros and cons that most would not understand and
simply miss.

All of our services can be tailored to your needs
and we will assist you each step of the way. Please
don't hesitate to reach out if you have any
questions, we're always happy to help.
